

Concept Map

excele^rAltor
excele^raitor.com

Main idea in the centre. Branch out, and write how each idea connects on its line.

Name: _____ Date: _____

Course: _____ Topic / chapter: _____

Need more branches? Draw extra boxes off any idea.
Dashed boxes: linking words (causes, leads to, is part of, example of, requires...)

Turn these notes into flashcards

1. Give every branch a short label and a linking word, so each line reads as a sentence.
2. Photograph the page or type the sentences up, then upload it at exceleaitor.com.
3. Each connection ("A causes B") becomes a flashcard or quiz question that tests the relationship.
